

Press Release

Second Review Meeting Completion

February 2026

The **SC4EU consortium** met in **Brussels** on **10 February** for the project's **second review meeting**, bringing together partners and reviewers to assess the current state of the work.

During the meeting, participants examined the **progress made** across all **work packages**, discussing **completed tasks**, **ongoing activities**, and the **milestones** reached so far. The **demonstrator session** provided an opportunity to present and explain the project's technical elements and tools in more detail, allowing for practical discussion around their development and use.

The reviewers contributed observations and **constructive feedback** throughout the meeting. Their input helped identify areas for improvement and clarified priorities for the next phase of the project, supporting the consortium in planning its future work.
